

# gap reports

A powerful reporting application that allows you to visualise insightful reports using your GAP data.

Analyse data with ease - even non-technical users can configure reports

Configuring a report is quick and simple - within minutes, you'll have your first one ready to go

Always display the latest information straight from your GAP environment

Deliver focused, consistent and targeted information without the need for external reporting tools

Filter and sort your GAP data so you only see what you really need

Share reports in seconds with colleagues and clients automatically or with a few clicks

Set up reports to be sent straight to you and your stakeholders' inboxes using the report scheduler

Build new reports for your unique requirements with support from two10degrees

Integrate GAP Reports into your solution today...

## ⌚ SAVE PRECIOUS TIME

GAP Reports enables you to become your own information manager. Our reporting tools give you instant access to the business intelligence you need. To save time, you can set up automatic reporting schedules to have reports sent straight to your inbox.

## 👁️ POWERFUL INSIGHT

GAP Reports filters and shapes your business data into focussed summaries of targeted information. You can export, print and share your reports as well as identify trends, KPIs and actionable events.

## 🌐 ACCESS ANYWHERE

GAP Reports is a web-based application that enables you to access your reports from any device with a web browser. GAP Reports gives decision makers and key stakeholders the data insights they need wherever they are. You do not have to be physically present in your office to explore your data and take actions.
